PRODUCT SPECIFICATIONS

Detection Range0.00 – 0.40 %BAC
Power SupplyTwo AAA batteries, included
Warm Up Time20-30 seconds
Response Time5 seconds
Operating Temperature50-104 °F (10-40 °C)

Intended Use:

Screens for the presence of alcohol in human breath; used in the diagnosis of alcohol intoxication.

Estimates and results may vary. This product cannot determine the subject's exact blood alcohol concentration (BAC) and should not be used for such purposes. Read the enclosed instructions first to ensure proper use, accuracy limitations and calibration requirements. It is very important to have the instrument calibrated periodically as recommended in the instructions. Failure to do so may result in inaccurate readings. Do not rely upon results to determine your level of intoxication or your ability to safely operate motor vehicles or heavy machinery.

BACTRACK[®] S30 SELECT
