

LOCAL CÓ-LOR

Color so fresh you can taste it!

You can't imagine life without color. Especially here.

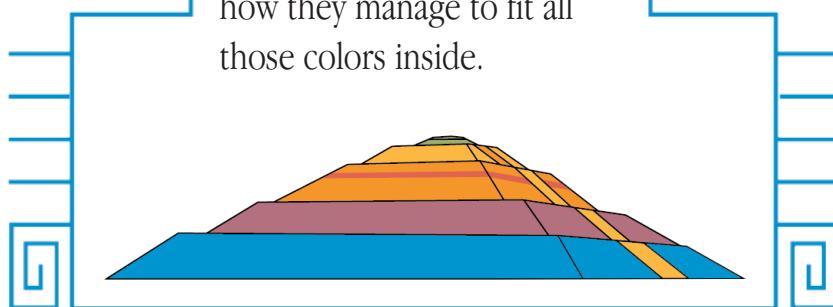

Teotihuacán. The birthplace of the gods. Site of a towering monument to everything that's light—the Pyramid of the Sun.

Here, people discover the ancient gods. They climb the steps, lay their colorful offerings on weathered stone. Fruit. Flowers. Dreams.

You want to tell the story. You want to tell it in color. On your Apple Color StyleWriter 2400. Sharp resolution. Vibrant images. Crisp text. And so compact. You wonder how they manage to fit all those colors inside.

Animal spirits everywhere. Ravens. Jaguars. Captured in stone, in frescoes, *in color*.

Tuesday, May 14—Rented a car and drove north from Mexico City to see the pyramid at sunrise.

Apple Color StyleWriter 2400

This ink-jet printer comes with Apple's ColorSync color-matching technology to match the colors you see on the screen with the colors on your printed page.

The fast-drying inks are fade- and water-resistant. This sample was printed in best mode on Apple Color Ink-Jet Premium Coated Paper, using Apple's Color StyleWriter 2400 Color Ink Cartridge.
